I am really happy with my experience having my top liner tattooed by Lisa Millington, as I previously had a bad experience with lash line tattoos in China that was very painful and left my liners uneven and ugly, I was reluctant to get my eyeliner tattooed again. Lisa was friendly and patient and my procedure was not as painful as my previous experience at all and my bad eyeliner were over ridden by a set of brand new beautiful liners. And at a really reasonable price of \$450, I am so happy.

I've been seeing Lisa for about six years. She has changed my life! My eyebrows are naturally thin and patchy, but Lisa achieved the exact shape and colour I wanted. No more pencils/powder required, it's so amazing to wake up with 'done' eyebrows every day! 😊 I was initially really nervous about the procedure/result, but Lisa always takes her time to get it just right. After being so happy with my brows, I also had my lips outlined for better definition. The effect is natural and subtle, but definitely noticeable. Thank you Lisa!!

Lisa and Art are thorough professionals. I would highly recommend anyone looking for a scalp micro-pigmentation to their studio. I'm extremely happy with the service they provided me. And would definitely go back to them in future if I need anything else. Keep up the great work Lisa and Art. Thank you

Where do I start, Lisa and her team have been amazing during my SMP course, I've always felt comfortable and confident with her being around. Now being a qualified SMP artist I can honestly say I have enjoyed every moment there with absolute no regrets ! :)

I absolutely love my new eyebrows. Lisa was amazing! I tried several cosmetic tattoo artists and Lisa assured me that she'd make sure I was happy. She was very patient with me and tweaked until I was happy. I've had so many positive comments - "I look younger", "Can I study them? They're beautiful!", etc. I highly recommend this studio. Thank you so much Lisa! This is the best thing I've done for myself. 😊

Lisa is absolutely AMAZING at what she does, her attention to detail is second to none, such a perfectionist and makes sure you're completely happy with your brows before you walk out. I couldn't believe the transformation before and after. Will be returning a million times, cannot put a price on quality work. Thanks again Lisa you're a superstar!!

Lisa is amazing!! I have been to her twice so far and I see myself going back to her for years to come. Before I started seeing Lisa I had very thin brows and I never felt confident with no makeup. After the first session I ended up with touch natural looking brows that framed my face so well. It's gave me such a confidence boost waking up to them all the time!

She is such a perfectionist. I always have full confidence in her work and know my eyebrows will come out looking amazing once they heal.

I cannot recommend Lisa enough! I have had some advanced training with her and what i have learnt from her in two days is more than i have learnt in the past with all my previous tattooists combined. Her professionalism, knowledge, and experience is second to none. Lisa also ombre tattooed my eyebrows and i will not let anyone else touch them. Thank you Lisa i look forward to attending more of your classes.

I had my eyebrows tattooed by Lisa 7 years ago and was very happy with the results. I now live in Western Australia and I've waited until I could get back to Melbourne to see Lisa again as I'd never trust anyone else to do my brows. She gives advice in regards to shape and colour but listens to her clients concerns and ensures you're completely happy before she goes ahead. 100% happy and I recommend her to anyone considering having their brows done, just do it! 😊
